About Russia

Russia is an amazing country with a long history, traditions, rich and diverse culture. Russia is one of the three most reading countries, and Russian education is considered one of the best in the world. Every year thousands of international aspirants from all over the world enter Russian universities. Russia is known for its cold climate. It is a land of superlatives. By far the world's largest country, it covers nearly twice the territory of Canada, the second largest. It extends across the whole of northern Asia and the eastern third of Europe, spanning 11 time zones and incorporating a great range of environments and landforms, from deserts to semiarid steppes to deep forests and Arctic tundra. Russia contains Europe's longest river, the Volga, and its largest lake, Ladoga. Russia also is home to the world's deepest lake, Baikal, and the country recorded the world's lowest temperature outside the North and South poles.

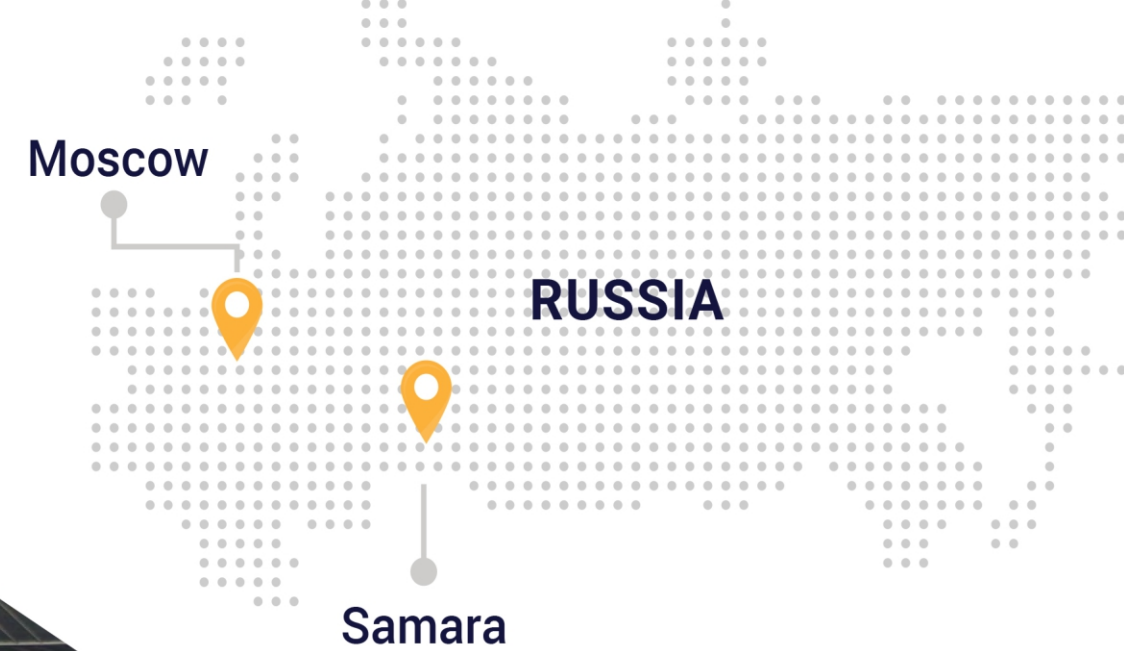

Why Choose Russia?

According to the Organisation for Economic Cooperation and Development (OECD), Russia has the most educated population in the world, outperforming Canada, Japan, Israel and the USA. More than **200,000** people from **168** countries come to study at Russian universities. There are a lot of advantages to study in Russia, here are just a few:

- ✓ Top-class degree recognised world-wide!
- ✓ Affordable cost of living
- ✓ A diverse range of study opportunity
- ✓ Safe country for Indian students to live in
- ✓ Medium of study is English
- ✓ Learn a language which can open many doors!
- ✓ Affordable tuition fees
- ✓ Live in a diverse country in both Europe and Asia

Map

Samara City

Samara is the 6th largest city in Russia. It is located in the south-eastern part of European Russia. The confluence of the Volga and Samara Rivers, not far from the border with Kazakhstan. Samara is a transportation and industrial hub, as well as home to one of Russia's top engineering institutions, **Samara State Aerospace University**, which has helped to pioneer Russia's innovative space program. Roscosmos is a Samara-based Progress Space Centre of the Russian Federation, which is responsible for space flights, cosmonautics programs, and aerospace research.

About University

Today, SamSMU has built a comprehensive system of multilevel continuous training of specialists. They introduced advanced teaching technologies, a clear organization of various types of university activities, as well as well functioning mechanisms for practicing practical skills - all these factors make an important contribution to strengthening the position of our university at the Russian and international levels.

At present, Samara State Medical University is a genuine university complex, providing students with the widest opportunities for high-quality training. Our university is a tradition multiplied by search, innovation, initiative, one of the largest medical universities in the country.

The high rank of the University of Samara State Medical University is confirmed by a wide range of areas of educational and scientific activities.

High scientific potential is determined by 6 own research institutes: **Institute of Experimental Medicine and Biotechnology**; **Research Institute of Hygiene and Human Ecology** ; **Research Institute of Eye Diseases**; **Research Institute of Haematology, Transfusiology and Intensive Care**; **Research Institute of Restorative Medicine and Rehabilitation**; **Research Institute of Cardiology**.

The structure of the university includes:

- ✔ **6** faculties and **77** departments
- ✔ Clinics for **1015** beds

- ✔ **Dental Institute**
- ✔ **Institute for Preventive Medicine**
- ✔ **Institute of Nursing Education**

- ✔ **Institute of Professional Education**
- ✔ **Institute for Innovative Development**
- ✔ **Institute for Digital Development**

Samara State University with a medical department was founded in January 1st, 1919. In 1930 Samara Medical Institute was opened (known as Kuibyshev Medical Institute later). In July 1993 the Institute was reorganized into Samara State Medical University.

Today Samara State Medical University is one of the largest and well-known medical universities in Russia.

Dr. Alexander V. Kolsanov
Rector of Samara University, PhD

The Most Trusted Medical University by Foreign Students

Training of foreign students on the basis of Samara State Medical University has been conducted since 1992. Over 1000 graduates from more than 35 countries completed their studies at Samara State Medical University. 453 foreign students (from the countries of the CIS, Africa, India, the Middle East, Southeast Asia, Latin America, USA) are currently studying at the faculty. Foreign citizens study in graduate school, undergo residency training, and also study in continuing education courses. Every year, about 100 students and teachers at Samara State Medical University undergo educational and scientific internships at the bases of foreign universities and partner organizations (IFMSA - European countries, leading medical universities of Belarus, Uzbekistan, Kazakhstan, Macedonia). The university implements joint educational programs with foreign partner universities (in the educational and methodological direction, in the field of e-education).

Accreditation

Unique Feature Of University

- ✓ **1** academician
- ✓ **25** honored doctors of Russia
- ✓ **1** honored health worker of the Russian Federation
- ✓ **4** honored scientists of Russia
- ✓ **7** honored workers of higher school of the Russian Federation
- ✓ **190** doctors of Sciences and **400** candidates of Sciences

Technological Competencies

Virtual Reality

7 project in the field of medical rehabilitation, education, virtual, tours

Augmented Reality

6 projects in the field of surgery specialized education, tours accompaniment

Neural Networks

2 projects in the field of diagnostic medicine

Simulation technologies

6 project in the field of medical education, practical medicine

BCI (Brain Computer Interface)

6 projects in the field of rehabilitation and diagnostics

Big Data

2 project in the field of dianostic medicine

High precision 3D-modeling

Over 10 projects in the field of diagnostic medicine, rehabilitation, surgery, education, virtual tours

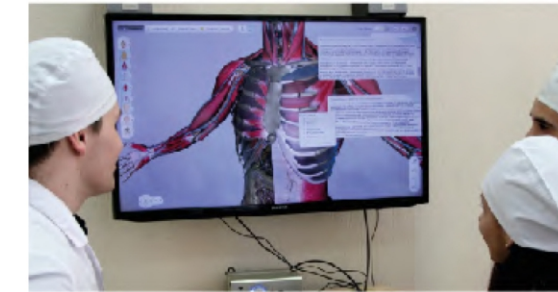

Lab-on-chip

5 projects (in developement) in the field of diagnostic medicine

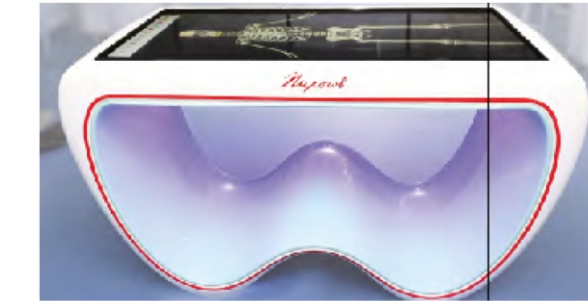

Innovation Developments

3D Atlas "INBODY ANATOMY"

- High level of reality and interactivity.
- Realization of prompt text and descriptions.
- Availability of pathologies.
- Availability of diagnostics information.

Interactive Anatomic Table "PIRGOV"

- It presents the material menstratively by dint of interactive work with 3D models - an opportunity to zoom/remove rotate about it self place in mode "Roenigen"
- It gives an opportunity to work with virtual biological material in actual size, what increases the realism of training material.

What Student Say About University

I am fortunate that I got recommendation of Samara State Medical University to pursue my MBBS in Russia. I have been experiencing a wonderful time in Samara, Russia where 2018 FIFA World cup organised. It's overwhelming to study in Samara State Medical University. It is very much grateful to study in such a country. The college and its staffs are friendly, and it feels like a home away from home to me.

The class rooms are spacious and are fully equipped with projectors. We at Samara State Medical University focus more on practical classes than theory classes. The lab facilities are so good and helpful. are conducted frequently. We started Clinical training from 2nd year and exams are based on MCQ patters.

Since I am an alumni from this esteemed institution I would definitely vouch that it's a good medical school . They have the best doctors to help us strengthen our basics of medicine and their clerkship programme is very comprehensive and hands on . I totally feel it's not only worth your money but worth all the effort and time.

Life at Samara

FMGE COACHING

We as FMGE Coaching institute, have trained over 5000 medicos into world-class doctors. At Arise we have an excellent support staff with good and experienced national-level FMGE faculty group who can teach the subject in a simplified manner that can be easily comprehended by the FMGE Students. ARISE Medical Academy, from inception, has been striving to assist the medical professionals and students who pursue MBBS Abroad. in gaining a comprehensive understanding of the medical education and mastering it through an explained, live interactive classes for FMGE / MCI Screening exam. We teach for various exams like FMGE / MCI screening exam, USMLE and MBBS undergraduate.
